DETAILED ACTION

Allowable Subject Matter

Claims 1 and 3-7 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding a plasma-processing method wherein the electrode within the processing chamber has a hole through which a gas mixture of sulfur hexafluoride and helium flows, and that hole opens toward the mounting unit upon which the object to be etched is placed. This placement provides a means by which the gas mixture blows directly onto the object being etched, as can be clearly seen by applicant's figure 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
